3. pricing.html — FAQ Section

Current FAQ Item: "What happens after the open beta ends?"

Current Text: "The open beta ends on **July 1, 2026**. Nothing breaks for free users — every existing free feature stays free, including the Prompt Builder, Photography Suite, Video panel, Vault, templates, and the daily AI caps listed above. The only change is that the **Expert Command Center** (Diagnose, Architect, Tune, Variations, Save) becomes a paid feature..."

Current FAQ Item: "What makes PromptMeGood different from other prompt builders?"

Update: Add a sentence to the second paragraph:

"Instead of making users scroll through a huge library of generic prompts, PromptMeGood helps them clarify their goal, add useful context, improve their instructions, and structure their desired output **using proven frameworks like RISE and CARE.**"

4. app.html — Structured Data Offers

Update the `description` for the Free offer in the `offers` array:

Current: "Free tier with daily limits (2 Run With AI on GPT-4.1-mini, 1 image generation, 1 file analysis per day). No signup required."

New: "Free tier with daily limits (2 Run With AI on GPT-4.1-mini, 1 image generation, 1 file analysis per day). Includes Target Model formatting, Frameworks, Interview Mode, and Quick Modes. No signup required."
