<ul>
  <li><strong>Target Model:</strong> Tell PMG where you plan to run the prompt.
  <li><strong>Frameworks:</strong> Choose how your prompt is organized. <strong>Quick Modes:</strong> Three chips at the top of the tuning panel
    <ul>
      <li><strong>Growth Mode:</strong> Adds a sales and marketing lens – practical.
      <li><strong>Human Voice:</strong> Softens the robotic edge so the AI writes like a human.
      <li><strong>Clarity Boost:</strong> Structures the output so it is easier to read.
    </ul>
  </li>
  <li><strong>Interview Mode:</strong> Turn this toggle on, and instead of generating a list of ideas, you get a single, detailed response.
</ul>
<p class="meta-line">All of these tuning features – Target Model, Frameworks, Quick Modes, Interview Mode, and Growth Mode – are available in the <strong>Tune Your Prompt</strong> panel.
