

PMG UI Copy Updates (v3)

Project: PromptMeGood (PMG)

Target: July 1, 2026 Launch

1. Tour Banner (app.html)

Implementation Rule: Use `pmg-launch-swap.js` to flip the copy on July 1. During beta, everyone sees the "Paid" copy because the features are genuinely open to everyone. Post-July 1, free users see the Free copy, and paid users see the Paid copy.

Free/Onboarding Copy (Post-July 1 for Free Users):

HTML

```
<h2 class="tour-card-title">Welcome To PromptMeGood</h2>
<p class="tour-card-sub">See how the Prompt Builder, Run With AI, and Image Gen
```

Paid/Beta Copy (Everyone during Beta; Paid Users Post-July 1):

HTML

```
<h2 class="tour-card-title">Welcome To PromptMeGood</h2>
<p class="tour-card-sub">See how the Prompt Builder, Run With AI, and Image Gen
```

2. Mobile More Menu (:)

When the topbar collapses on mobile, the Growth Mode and Expert Center buttons move into the "More" menu.

New Descriptions (One-liners):

- **Growth Mode:** "Full marketing suite: Brand Voice, Social Packs, Platform Builder. (Paid feature)"
- **Expert Center:** "Diagnose, Architect, Tune, Variations, and Save. (Paid feature)"

3. Tooltips & Toggle Descriptions (app.html)

Location: Line ~5068 (Growth Mode toggle description)

Current: A per-prompt directive that biases output toward sales, marketing, and conversion-focused phrasing. Turn off for neutral/general prompts. (For full marketing prompts with brand voice + social packs, use the  Growth Mode drawer in the topbar.)

New: A per-prompt directive that biases output toward sales, marketing, and conversion-focused phrasing. Turn off for neutral/general prompts. (For full marketing prompts with brand voice + social packs, use the  Growth Mode drawer.)

(Change: Removed "in the topbar" since the drawer can now be accessed from the feature entry row as well).

Location: Line ~5058 (Advanced Output Settings subtitle)

Current: `<span class="adv-sub">Growth Mode (tuning directive), Human Voice, Clarity Boost</span>`

New: `<span class="adv-sub">Human Voice, Clarity Boost</span>`

(Change: Removed "Growth Mode (tuning directive)" as it is now surfaced as a chip in the Quick Modes row).

4. Feature Entry Row (New UI)

Button 1:

- **Label:**  Growth Mode
- **Tooltip (Free users post-July 1):** Available on paid plans. Full marketing suite including Brand Voice and Social Packs.

Button 2:

- **Label:**  Expert Center
- **Tooltip (Free users post-July 1):** Available on paid plans. Diagnose, Architect, Tune, Variations, and Save.
